Maths answers

Lesson 1

Pounds and pence

1 Match the amounts that are equal.

16p

twenty-five pence

£25

sixty pence

twenty pounds

2 How much money does each person have?

a) £12

b) £47p

c) 85p

3 I can make the same amount of money in many ways.

What amount has Mo made? £1

Make this amount another way.

Draw your coins.

E.g.

Compare answers with a partner. Is there another way?

© White Rose Maths 2019

4 Dora earns £10 for walking the dog. Tick the money Dora is given.

5 Count the money.

a) £31 and 50p

b) £12 and 10p

c) £21 and 25p

d) £50 and 50p

e) £11 and 61p

6 Jack has 4 silver coins and Rosie has 5 silver coins. Show that Jack can have more money than Rosie.

E.g.

Jack: 80p

Rosie: 50p

Compare answers with a partner.

© White Rose Maths 2019

- 1a. A. £4 and 20p; B. £5 and 21p
2a. £2 and 21p
3a. B
4a. A

- 9a. A. £21 and 60p; B. £5 and 15p; C. £10 and 26p
10a. £11 and 48p
11a. A
12a. B

7a. Various answers, for example: Ruby could use one £5 note, four £2 coins and one 50p coin and one 20p coin (£13 and 70p) to buy the trousers; She could use two £5 notes, one £2 coin, one £1 coin, two 50p coins, one 20p coin, one 10p coin and one 2p coin (£14 and 32p) to buy the trainers. Five different combinations given for each.

8a. Various answers, for example: One £10 note, one £5 note, one £2 coin, three 20p coins and one 10p coin. If two of these coins fall out the highest possible total left would be £17 and 40p.

9a. Maria is correct because $£10 + £5 + £2 + 50p + 20p = £17$ and 70p.

Lesson 2

Convert pounds and pence

1 a) Circle £1

b) Circle £1

c) Circle £1

d) Circle £10

2 How many 1p coins do you need to make £1? 100

3 Write the price of each item in pence.

£1 and 24p 124p

£2 and 24p 224p

£5 and 45p 645p

4 Write each amount in pounds and pence.

a) 274p = £2 and 74p b) 592p = £5 and 92p
374p = £3 and 74p 591p = £5 and 91p
474p = £4 and 74p 590p = £5 and 90p

© White Rose Maths 2019

c) 111p = £1 and 11p

d) 405p = £4 and 5p

5 Annie has some coins.

a) How much money does Annie have? £3 and 7p

b) What is 10p more? £3 and 17p

What is 10p less? £2 and 97p

c) What is 100p more? £4 and 7p

What is 100p less? £2 and 7p

6 What amount is represented in each box?

£5 and 8p

£4 and 5p

£5 and 50p

7 Eva empties out her money box.

How much money was in her money box? £15 and 67p

How did you count the coins? Compare with a partner.

8 a) What is the fewest number of coins you can use to represent 315p?

6 coins: £2, £1, 10p, 5p

b) Use 6 coins to make an amount that is more than £3, but less than £4. Draw your answer.

E.g.

£1, £1, £1, 10p, 10p, 1p

Compare answers with a partner.

© White Rose Maths 2019

- 1b. A. 455p; B. £1 and 45p; C. 116p
2b. £5 and 51p
3b. B, A, C
4b. The table should be completed as follows:

Pounds and pence	Pence
£2 and 30p	230p
£7 and 25p	725p
£3 and 44p	344p
£4 and 73p	473p

- 9b. A. 745p; B. £12 and 24p; C. £12 and 50p

- 10b. Six 50p coins, twelve 5p coins and seven 1p coins

- 11b. B, C, A

- 12b. The table should be completed as follows. There may be variations where answers involve notes:

Notes and coins	Pounds and pence
One £20 note, two 5p coins, and one 1p coin	£20 and 11p
Two £5 notes, four £1 coins and six 20p coins	£15 and 20p
Nine 50p coins, two 20p coins and six 2p coins	502p
Various answers, for example: three £5 notes and seventeen 1p coins	£15 and 17p

- 7a. Josh has £10 and 826p = £18 and 26p. £18 and 26p is greater than £17 and 86p so Josh does have enough money.

- 8a. Dina is correct because she has recognised that two lots of £5 = £10 so £10 and 810p = £18 and 10p.

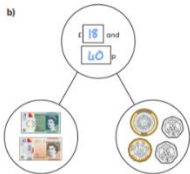

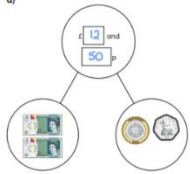

- 9a. Various answers, for example: £8 and 52p = 852p; £6 and 71p = 671p; £5 and 82p = 582p; £7 and 16p = 716p.

Lesson 3

Add money

- 1 Complete the part-whole models.

1a. £3 and 10p + £2 and 50p = £5 and 60p, as shown on the number line below:

$$£3 \text{ and } 10p + £2 \text{ and } 50p = £5 \text{ and } 60p$$

- 2a. £5 and 30p + £1 and 20p = £6 and 50p
3a. £3 and 20p + £1 and 40p = £4 and 80p
4a. A. £8 and 30p; B. £4 and 55p

- 2 Dora buys two birthday cards.

Complete the sentences to show how much money Dora spends.

$$£2 + £2 = £4$$

$$20p + 15p = 35p$$

Dora spends £4 and 35p.

- 3 Complete the number sentences.

a) £3 and 12p + £5 and 12p = £8 and 24p

b) £3 and 30p + £5 and 30p = £8 and 60p

c) £3 and 50p + £5 and 50p = £8 and 0p

d) £4 and 50p + £5 and 50p = £9 and 0p

What do you notice?

- 4 Brett has £6 and 55p. Aisha has £2 and 55p. How much money do they have altogether?

$$£9 \text{ and } 10p$$

- 5 Annie and Alex are having pizza for lunch.

Tomato pizza	£5 and 40p
Vegetable pizza	£7 and 75p
Potato wedges	£1 and 79p
Cheese bites	£2 and 83p

- a) Annie orders a tomato pizza and cheese bites. How much does it cost?

$$£8 \text{ and } 23p$$

- b) Alex has £10. She wants to buy potato wedges and a vegetable pizza. Does she have enough money? Yes
Explain your answer.

- 6 Mo buys a cap for £6 and 50p. He also buys a key ring. He spends £10 in total. How much does the key ring cost?

$$£3 \text{ and } 50p$$

- 7 Complete the bar models.

- 8 Eva has £6 to spend.

What can Eva buy?

Various answers

Compare answers with a partner.

7a. A + B = £12 and 53p; A + C = £11 and 87p; A + E = £6 and 78p; A + F = £11 and 10p; B + E = £10 and 13p; E + F = £8 and 70p

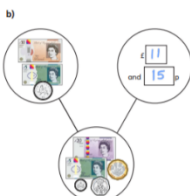

8a. Various answers, for example: £5 and 21p (made up of: one £5 note, four 5p coins and one 1p coin) + £9 and 94p (made up of four £2 coins, three 50p coins, two 20p coins and two 2p coins) = £15 and 15p. 1 (odd) note and 16 (even) coins have been used.

9a. No, this is not possible as the difference is 20p. This can't be made with three identical coins.

Lesson 4

Subtract money

- 1 Complete the part-whole models.

- 2 Tommy has £5 and 75p in his pocket.

He puts £2 and 50p in his money box. How much is left in his pocket?

$$£3 \text{ and } 25p$$

- 3 Whitney has £4 and 80p.

She buys this pair of socks.

How much money does Whitney have left?

$$£2 \text{ and } 15p$$

- 4 Complete the statements.

a) £8 and 65p - £5 and 25p = £3 and 40p

b) £8 and 65p - £5 and 65p = £3 and 0p

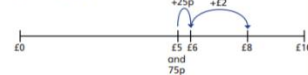

c) £8 and 65p - £8 and 30p = £0 and 35p

- 5 Amir and Rosie use a number line to subtract £5 and 75p from £8.

Amir's method

Rosie's method

Amir and Rosie both get £2 and 25p as their answer.

- a) Explain each of these methods to a partner.

- b) Whose method do you prefer? Various answers

Explain why.

- 6 Complete the number sentences.

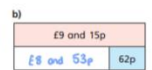

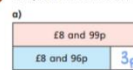

a) £3 and 50p - £1 and 20p = £2 and 30p

b) £3 - £1 and 50p = £1 and 50p

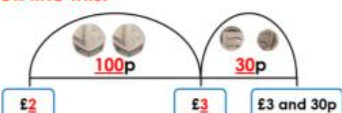

c) £6 and 15p - £2 and 85p = £3 and 30p

d) £8 and 7p - £3 and 54p = £4 and 53p

- 7 Complete the bar models.

1a. The completed number line should look like this:

- 2a. £1 and 50p
3a. £3 and 10p
4a. £2 and 10p

9a. The completed subtraction and number line should look like this:

- 10a. £6 and 87p less
11a. £16 and 92p - £11 and 85p = £5 and 7p
12a. £6 and 80p

7a. Jamie has £10 and 50p more than Sarah because £17 and 49p - £6 and 99p = £10 and 50p.

8a. Trixie has subtracted £15 and 64p - £3 and 63p incorrectly as it should equal £12 and 1p. The correct answer is: £15 and 64p - £7 and 93p = £7 and 71p.

9a. Various answers, for example: £13 and 35p - £7 and 29p = £6 and 6p.

Lesson 5

Give change

1. How much change would you get from a £10 note?

a) £5 and 0 p

b) £8 and 0 p

c) £0 and 15 p

d) £1 and 90 p

e) £7 and 25 p

2. Annie buys some crayons.

She pays with this money.

She gets this change.

Has Annie been given the correct amount of change? No

Explain your answer.

She got £1 and 85p change she should have got £1 and 75p.

3. Huan buys a hot chocolate for £2 and 60p.

He pays with a £5 note.

How much change does he get?

£2 and 40 p

4. Dani buys a milkshake.

She pays with a £5 note.

She gets £2 and 60p change.

How much did the milkshake cost?

£2 and 40 p

5. Ms Hall has £9 to buy breakfast.

She gets £4 and 25p change.

Waffles	£4 and 75p
Omelette	£5 and 75p

Which breakfast does Ms Hall buy?

Use a number line to explain your answer.

Ms Hall buys the waffles for breakfast.

6. A train ticket costs £3 and 60p.

A bus ticket costs £2 and 85p.

Mr Khan buys a train and a bus ticket.

He pays with a £10 note.

How much change does he get?

£3 and 55 p

7. Mrs Dean buys a T-shirt.

She pays with a £10 note.

She gets four coins in change.

Each coin is different.

a) What is the lowest possible price of the T-shirt?

£6 and 30 p

b) What is the highest possible price of the T-shirt?

£9 and 82 p

Compare answers with a partner.

English Answers

Lesson 1

Billy McBone - Poetry

Key vocabulary: rhyming couplet, mind, burgle, wandering

Retrieval

- Where did Billy McBone mostly keep his mind? Under his hat
- How did the teachers search, year after year, for Billy's mind? Tried test after test

Inference

- Do you think Billy McBone would be perceived of a good pupil? Use evidence from the poem to support your answer: No, the teachers thought he couldn't be taught, they couldn't work out where his mind was, when asked a question he just shuffled and stared at the floor, the teachers tried in vain to work out his brain.

Vocabulary

- 'Tried to burgle his brain' tick the closest meaning to burgle.

Take something without permission.

To eat something.

To clean.

Lesson 2

Roman Coin Surprise For Mrs Ship Answers

- When did the building work start on Mrs Ship's property?

The building work on Mrs Ship's house began in March 2014.

- What had Mrs Ship been doing when she spotted the treasure?

Mrs Ship had been watching the builders dig up her lawn and was handing them cups of coffee when she noticed something in the hole they were digging.

- What did Mrs Ship do after finding the treasure?

Mrs Ship reported the find and sent the builders home.

- Why did Mrs Ship sleep outside that night?

Mrs Ship slept outside because she wanted to guard the precious find.

- What sort of television programmes do Mrs Ship and her daughter like to watch? What does this tell us about their interests?

Mrs Ship and her daughter liked to watch archaeology television programmes on television. This tells us that they were interested in history and archaeology.

- What has this inspired Sally to do?

Sally has been inspired by this experience and she has joined her local metal detectors group.

- Can you use two adjectives to describe how Sally would have felt?

I think Sally would have felt excited and curious.

- What will happen to the treasures?

The coins will go on display to the public but it is yet to be decided where.

- How do you think the coins ended up in Mrs Ship's garden?

I think that because there were quite a few coins, someone hid them in a safe place and then forgot where they had put them.

- Have you ever made an exciting discovery?

Yes. Once, a few years ago, I was digging in the back garden when I found an old glass bottle. My dad and I did some research and it turns out it was a Victorian drinks bottle that had been throw away.

Lesson 3: The Once Upon A Times

Price: 1 magic bean Sunday, 22nd Feb

WICKED WOLF GETS HIS JUST DESSERTS

Yesterday afternoon, a young girl and her grandmother miraculously survived a run-in with a ravenous wolf. Little Red Riding Hood was visiting her grandmother's cottage in the forest when both were swallowed alive by the creature. However, luck was on their side, as a local woodcutter was on hand to cut them free.

At approximately 1:15 p.m. on 21st February, witnesses claimed that they saw Miss Riding Hood, a young girl aged 10, skip into the forest carrying a basket of cupcakes. The path from the village through the forest is a well-trodden route, used by everyone from school children to village elders. Local resident Goldilocks (12) of Porridge Drive said, "I've used that path hundreds of times and it's always seemed perfectly safe." Mr Hansel (35), who runs the village orphanage, commented, "Of course, I warn the children not to approach any gingerbread houses. But avoid the woods entirely? Nonsense."

Miss Riding Hood claims that she was nearly at her granny's cottage when she was approached by a wolf posing as a polite gentleman. She reports that the wolf acted kindly at first, and even pointed out a shortcut to her granny's cottage. However, all was not as it seemed. Miss Riding Hood explained that from the moment she arrived at her granny's cottage, she could sense that something was not quite right.

Once inside, Riding Hood found her granny in her nightgown, tucked up in bed,

apparently ill. However, after a short bout of questioning, Red soon realised that the person to whom she was speaking was not her granny at all, but the wolf in disguise.

Miss Riding Hood alleges that both she and her granny were gobbled whole by the cunning beast. "I found Granny alive, but very uncomfortable, inside the wolf's stomach," she told The Once Upon a Times.

Mr B.B. Wolf would not 'paws' to comment.

After ten traumatic minutes inside the wolf, the pair were freed by an axe-wielding woodcutter.

"As soon as I saw the wolf on the bed, I knew that something was wrong," stated the heroic woodcutter. "You didn't have to be a genius to work out where Granny and Red had ended up. He'd had the old lady for starters and her granddaughter for the main course."

Miss Riding Hood and her grandmother are now staying with Miss Riding Hood's mother in the village, where they are said to be recovering well. Meanwhile, Mayor Gretel has announced plans for an investigation into the cunning, wolfish activity in Fairytale Forest. If she fails to act, could our beloved forest be lost forever?

Pinocchio, Junior Correspondent

Lesson 4 Task 1:

Subordinating Conjunctions Answers

Underline the subordinating conjunction in each sentence.

- While the leaves on the trees flushed into their autumn finery, Guster's green summer scales slowly changed to copper.
- Guster knew that it couldn't be natural.
- His pointed ears twitched, swivelling until they heard the chatter of human voices.
- As Redbreath closed her eyes and lost herself in the past, Guster had a brilliant idea.
- He could still hear the clangs and crashes of Redbreath's search as he clambered onto his launching rock.

Add an appropriate subordinating conjunction into each sentence. Don't forget to read your sentence back to check that it makes sense! Use the word bank to help you.

- This was the way that Redbreath always sat when she was about to tell a tale of the old times.
- When the lake was much smaller, this island had been the moot hill.
- As Guster watched, he realised they had already changed the shape of the land.
- Once it had cleared a path to the cave, it rumbled away.
- Even though it was night time, the museum was completely packed.

Lesson 5 Task 1:

Speech	Direct or Indirect Speech?
William asked if he could have a turn on the slide.	Indirect
"It's my turn next," Shiya shouted.	Direct
Dad said that the children should stop arguing.	Indirect
Kylie mentioned that the swings were free.	Indirect
"I love the park," squealed Emir.	Direct
Mum told the children that it was time to go home.	Indirect

Task 2:

Add the correct punctuation to these direct speech sentences.

- "Look up at the sky!" screamed the boy, "I just saw the most magnificent dragon."
- "It had ginormous wings and was the size of a double decker bus," explained the shy, petite girl.
- "I couldn't believe my eyes. I thought I was dreaming!" explained the shocked old lady.

Reading for productivity Answers

DT answers

Reading for Productivity in DT

Key vocabulary: linkages, levers, mechanism, input, output, fulcrum

Retrieval

- 1.) What is a linkage? A linkage is a mechanism made by connecting together levers.
- 2.) How do you make a linkage? To connect the levers together to make a linkage you can use any type of fastening which allows free movement, for example screws, pins, paper fasteners, pop rivets etc.
- 3.) What is the difference between a lever and linkage? A linkage connects levers together whereas a lever is a separate part of the linkage that rotates on a point.

Inference

- 4.) Why and how do you think levers were used throughout ancient times? To move objects including rocks and food.

Vocabulary

- 5.) What is a 'fulcrum'? A fixed point that a lever rotates around.

PSHCE answers

Questions

- 1) What will you overcome by being brave? Challenges
- 2) Find and copy one word that means 'across the country'. nationwide
- 3) Who is the patron of Place2Be? The Duchess of Cambridge
- 4) True or false?

	True	False
If you need to talk about your mental health, you should talk to an adult whom you trust.	<input checked="" type="radio"/>	<input type="radio"/>
Place2Be started Children's Mental Health Week in 2014.	<input checked="" type="radio"/>	<input type="radio"/>
Children's Mental Health Week is a celebration of intelligence.	<input type="radio"/>	<input checked="" type="radio"/>
Mental health means how people feel about different things in their life, such as relationships, health, work and themselves.	<input checked="" type="radio"/>	<input type="radio"/>

- 5) Give one tip for a child to improve their emotional wellbeing.

Any of the 3 tips given in the last paragraph.

Spanish answers

1. Name a festival that happens in the Spring?

La Feria de Abril or Las Fallas.

2. When does the Tomatina take place?

Geography answers

Reading for Productivity – Geography – Vegetation Belts

Retrieval

1. List two types of vegetation belts. Forest, grassland, tundra, desert and ice sheet.
2. Which vegetation belt has little or no vegetation? Ice sheets.
3. Which vegetation belt are flat and open areas? Grassland
4. What type of plants grow in the tundra? Shrubs, grasses and mosses.

Vocabulary

5. Find and copy a word that means the same as rainfall. Precipitation.

Science answers

Reading for Productivity – Magnets

Key vocabulary: magnetic, magnetic force, magnetic field, attract, repel nickel, cobalt

Retrieval

1. What is a magnetic field? The magnetic force surrounding a magnet.
2. What happens if the same pole of two magnets are placed near each other? They repel / push away from each other.
3. Earth has its own magnetic field. What does this keep us safe from? This keeps us safe from space radiation and particles.
4. True or false... For magnetism to occur an object can be far away from the magnet. False, the magnet must be close enough to the object so it can be in its magnet field.

Vocabulary

5. "Magnets can attract some objects and repel others" What does the word repel mean? To push away an object
6. Not all objects are affected by magnets. What do we call these objects? Non-magnetic

3. Which carnival is considered to be the second most famous carnival in the world?

The Carnival of Santa Cruz de Tenerife.

4. How do you think people become the carnival queen?

Smiling a lot, having beautiful hair and having a nice outfit.
