

This is what your child will be learning in school. As always, we welcome your support and encourage you to talk and explore some of these with your child at home.

Reception – Term 6

Maths

As mathematicians, we will continue to develop our understanding of numbers beyond 10. Children will recap their learning of adding and subtracting numbers within 20. Children will learn to share and group objects, as well as developing their understanding of odd and even numbers.

Please encourage your child to access Top Marks- this is a great website to consolidate learning!

www.topmarks.com

Communication and Language

This term, we will be discussing right from wrong. The children will discuss the right/wrong choice in different scenarios.

With your child, discuss rules that your child must follow to stay safe at home and in school.

Physical development

Full kit is required every **Thursday** for PE, where children will be participating in team games!

Children will continue to develop their fine motor skills through daily writing sessions.

Ask your child to show you a skill that they have learned in PE.

Homework

Reading- all children are expected to read/be read to 4 times a week and ensure it is recorded in their reading journal.

Learning task- All children are expected to complete the weekly learning task. Please upload any pictures to tapestry/dojo.

Children will be awarded a dojo for their home learning task.

Personal, Social and Emotional Development

This term, we will be focusing on road safety and sun safety.

With your child, make a list of how to stay safe in the sun.

I wonder who shares our world...?

English

In English, we will be reading 'We're Going on a Lion Hunt', 'Island Born' and 'Big Book of Blue'.

Use the QR codes on our weekly learning letters to read along with us!

The children will be looking at non-fiction texts, writing diaries and exploring poetry.

This term, pupils will continue to develop their confidence in writing sentences. Please encourage your child to use capital letters, finger spaces and full stops in their writing.

Pupils continue to take part in daily RWI phonics lessons. Please continue to support your child in reading their RWI book at home.

Understanding of the World

As scientists, we will be comparing hot and cold climates. We will also be classifying animals.

Look at a world map with your child. Can you identify hot and cold climates on the map?

As geographers, we will be exploring Africa. We will be comparing African life to our own.

With your child, discuss cultural difference between Africa and the UK.

Expressive arts and design

As artists, we will be using paper to sculpt fish, adding details by manipulating paper in different ways. Pupils will explore the work of Aysa Kozina, and reflect on the ways that she has manipulated paper.

Research the work of Aysa Kozina. Learn one fact about this artist.

As inventors, we will create a beach hut. Pupils will produce and annotate plans to specify the colours of their design and the placement of their components.

As musicians, we will be listening to African music.

Listen to some African music with your child. What instruments can you hear?
